REDEFINE

Made with pride in America.

Redline Performance Products has redefined the industry. We're committed to designing and producing the top-performing sport terrain vehicles (STVs) at our factory in Perham, Minnesota. Because of this dedicated mission, we use only high-end, name-brand components and back all our STVs with the exclusive Redline warranty.

STVs can be hazardous to operate.

For your safety, always wear your helmet, eye protection, 5-point harness and wrist restraints. Redline vehicles are intended for off-road use; avoid paved surfaces. Drivers must be at least 16 years of age with a valid driver's license. Passengers must be at least 12 years of age and be able to reach the passenger handle and have both feet on the floor. Follow all warnings and instructions in the Operator's Manual and on the vehicle. Avoid excessive speeds, sharp turns and stunt driving. Do not drive while under the influence of alcohol or drugs. Please operate Redline machines responsibly.

Exclusive Redline Warranty.

As the Original Equipment Manufacturer of Revolt, Revolt XL and Riot, the high quality and out-of-the-box, peak performance you've come to depend on are guaranteed by Redline Performance Products. Any new Redline product purchased from an authorized Redline dealer is backed by our six-month factory warranty. Please see your nearest dealer for details.

Unrivaled in the new class of off-road.

Redefine your expectations of performance. When Redline Performance Products unleashed the Revolt, it exposed the limitations of the common recreation vehicle and introduced the world to an entirely new category of machine—the sport terrain vehicle (STV).

Redline produces top-of-the-line performance products and when it comes to STVs, we are unrivaled. For serious riders like you, Redline produces a machine out of the mainstream.

REVOLUTIONARY

Revolt

Made in the USA, the Redline Revolt is responsible for the evolution of a new regime in off-road vehicles. The Revolt's 72hp Weber engine is no work and all play with more predatory power than mainstream machines. It devours dirt, desert, sand and trails leaving only dropped jaws and spent air in its wake.

Feed your hunger for airborne thrills, minus the turbulent landing, in our agile, single-seat Revolt. Fox shocks with long travel suspension make mincemeat of whoops, ravines and razorbacks. Built-in safety features allow you to throw caution to the wind and push the limits of this boundless machine. Accept the challenge of a Redline Revolt.

RELENTLESS

Revolt XL

The Revolt XL is fun on a rampage. Your reputation as a bonafide thrill seeker is on the line so don't settle for an ordinary ride—push it to a whole new level! Flex all the muscle of Revolt XL's 72hp Weber engine and see just how high you can fly across the dunes, dirt, desert or trails. Feed the adventure junkie in you.

Compared to the Revolt, the Revolt XL is 7½ inches longer with easy entry built in. Fully loaded and packed with power, it's ready for action right from the factory. We're just waiting for you to get ripped on the power of the Revolt XL.

RALLY

Riot Side x Side

Trade in the rat race for the racetrack—or the dunes, desert or mountain trails—and escape the mundane. Retaliate against the regular humdrum weekend and head out for the extreme experience of the all new Riot side-by-side.

Ditch the solo flight and share the wild abandon of off-road adventures with a co-pilot. All Redline STVs have heavy-duty, five-point harnesses, wrist restraints and tubular space frames to give you the security of a safe journey without sacrificing a totally wicked ride. Don't dream big, drive big with Redline's Riot side-by-side.

Some vehicles shown with optional equipment.
